TO: University Departments for Graduate and Undergraduate Students

RE: Ben Fry Memorial Scholarship

Dear Professors, Staff and Students:

Concrete Masonry Association of California and Nevada, a non-profit organization, is pleased to announce we have established a scholarship for students who have successfully completed a cooperative work experience with one of CMACN's Producer Member companies (found on the CMACN website at <http://cmacn.org/producer-members.htm>) and who will be continuing at their same university in fall 2018.

As an association of concrete masonry block manufacturers, CMACN's mission is to strengthen the masonry industry in California and Nevada by providing technical information resources on concrete masonry for design professionals, protect and advance the interests of the concrete masonry industry, develop new and existing markets for concrete masonry products and coordinate our members' efforts in solving common problems within the masonry industry.

CMACN develops, monitors and coordinates test programs, research projects and specification updates. We publish technical and educational data, and both receive and disseminate recommendations for improved product use. To this end, we have established a scholarship program in order to promote the study of concrete masonry as a subject. Recipients of the Ben Fry Memorial Scholarship will receive \$2,000 towards tuition to be paid directly to the university on behalf of the recipient. In addition, awarded students will receive a copy of our latest edition of "Design of Reinforced Masonry Structures", which is the association's premier publication. The scholarship winner and the university contact person will be notified of the scholarship award.

Requests for this scholarship should be submitted via email, snail mail or fax on the attached application and include at least one signed, dated and sealed departmental recommendation AND a signed, dated and sealed recommendation from the cooperative work experience supervisor from one of CMACN's Producer Member companies (see the list of Producer Members and their locations at <http://cmacn.org/producer-members.htm>). Additionally, the scholarship recipient must be committed to continuing at their stated university in fall 2018. All applications must be **postmarked no later than Monday, March 19, 2018**. Repeat applicants and previous awardees are welcome to apply.

If you are not the appropriate person to whom we should send future announcements of this scholarship information for dissemination, please contact us with the correct contact information so we may change our records accordingly.

Please be sure to call if you have additional questions with regard to this matter.
